FFPD Vegetation Management and Abatement Update
November 16, 2026, Meeting

Annual Surveys

All scheduled inspection surveys are complete. We have split the districts within the Fairview boarders into three zones. Each zone will be inspected on a three-year cycle. This is so the crews have more time to do a more detailed inspection within the designated zone. These zones will include all state identified high fire hazard zones.

Above results are as of October 31, 2026

Chipping/RAP Program

Fall 2026 chipping program is ongoing.

For fall, we scheduled a 10-week chipping service from September through November. As of October 31st, we have serviced 122 applicants, and we estimate 50 more additional applicants to fully expend our $112,000 chipping budget. We are already above our usual number of completed applicants with 172 registrants for the year. We have used 85% of our budget to date.

week #	week of	*man hours*	*cost*	*hauling @20yrds per load*	*cubic yards*	**# of homes**	Keep chips	*Property Acres*

8	10/26/2026							
		128	$46,200.00	22	446	**103**	18	82.49

For RAP, we have completed 5 homes so far and plan to complete 5 more before year end. We have used 72% of our RAP budget to date.

As reported in the September meeting, four of the properties were in Hayward jurisdiction and one was in Fairview.

Grant Status

We are currently using fund from the CAL FIRE California Investments (CCI) Program – FY 2025-26 Wildfire Prevention Grant Awards. Award amount: $ 215,040.00, with $172,000 specifically for chipping and RAP.

We will use FFPD funds only if needed. We have applied for another CAL Fire grant for 2027.

Summary of 2026 Cal Fire grant budget:

Cal Fire	Budget	Actual	Percentage
Chipping	$ 112,000.00	$ 86,325.00	77%
RAP	$ 60,000.00	$ 43,000.00	72%
Other	$ 20,000.00	$ 16,829.97	84%
Indirect	$ 23,040.00	$ 4,636.10	20%
	$ 215,040.00	$ 150,791.07	70%

Nuisance properties:

- Nina St (landlocked behind Beckham Way) - 426-0150-043-00
    - Violation: Remove all dead or down trees and tree limbs from the property.

Property owner contacted Fire Admin. He advised that he received a notice from County Code Enforcement. County Code extended his abatement deadline to 12/31/26. We recommend following the County's lead and extending our order to abate notice deadline to 12/31/26 or removing the order to abate to let County handle the enforcement process.

- Reyna Dr (lot behind Cisneros Dr) - 417-0299-027-00
    - Violation: Remove all dead or down trees and tree limbs from the property.

HOA Management Company contacted Fire Admin. They will have an arborist review the property and provide an update for abatement. We recommend granting an extension to 12/31/26.

AN ORDINANCE OF THE BOARD OF DIRECTORS OF THE FAIRVIEW FIRE PROTECTION DISTRICT SETTING DIRECTOR COMPENSATION FOR ATTENDANCE AT MEETINGS, PURSUANT TO CALIFORNIA HEALTH AND SAFETY CODE SECTION 13857 AND CALIFORNIA WATER CODE SECTION 20202

Findings and Recitals

The Board of Directors of the Fairview Fire Protection District ("District") hereby finds and declares as follows:

1. California Health and Safety Code section 13857, subdivision (a), authorizes directors of a fire protection district to receive compensation not to exceed $100 for each meeting attended, up to a maximum of six meetings per month.
2. California Health and Safety Code section 13857, subdivision (b), authorizes the Board, after holding a hearing on the matter, to adopt an ordinance increasing director compensation above the $100 cap.
3. California Water Code section 20202 authorizes the Board to increase the amount of compensation for directors in an amount not to exceed an increase of five percent (5%) for each calendar year following the operative date of the last adjustment of the compensation.
4. The District's current policy sets director compensation at $100 per meeting. The District's last adjustment of director compensation occurred in January 2007.
5. As nineteen calendar years have elapsed since the last adjustment, the Board intends to increase compensation by five percent (5%) per year for each of those years, to the maximum amount authorized.
6. The Board desires to adopt this ordinance to establish director compensation in the amount of $195 per meeting attended, consistent with the foregoing authority, subject to the statutory limit of up to six meetings per month.

Fairview Fire Protection District General Manager Memo

Prepared by: Anthony Kalvans

Date: October to November 2026

1. Completed

- **General compliance and continuity:** In alignment with the strategic plan, I have developed a master calendar of recurring deadlines, training requirements, filings, and a master agenda calendar to help plan out board meetings and handle regulations. These documents will be modified as new regulations come from the State.
- **Property Notification:** I enrolled the District in Alameda County's annual tax defaulted property notification system. This will allow the District the option to evaluate potential properties for purchase and potentially for only the outstanding taxes owed.
- **Board Member Handbook:** Completed an updated draft of the Board Handbook incorporating District policies, District history, quick access to relevant FFPD and community documents, as well as onboarding and offboarding checklists for board members. Counsel's paralegal is currently reviewing it and cleaning up the formatting.
- **Preparedness and communications:** Thanks to President Dimic, disaster preparedness resources are now easily accessible on the District website. Hayward Fire will be giving a brief update on winter storm preparedness.
- **Management information:** Organized previously reported financial and performance metrics into an initial internal managerial dashboard to support long-term Board oversight.
- **Station 8 Solar Update:** Solar system was visually inspected on 10/24. Please see the attached addendum at the end of the report.

2. Underway

- **FY 25/26 Audit:** Established communications with Cropper Accountancy Corporation, the engagement letter has been signed and a timeline to complete the audit has been established. Barbara is working to close out the books. We are also evaluating temporary accountant assistance to assist with the SKE responsibilities, preparation of the MD&A, GASB implementation, along with any identified audit needs.
- **Old Station 8:** Working on getting a contractor to inspect the roof and prepare it in advance of winter weather.
- **FFPD Office Reactivation:** The FFPD Administration Office is being organized and restored to support district business. An initial assessment and clean up was done on October 24th.
- **Transparency certification:** Reviewing current SDLF Transparency Certificate requirements and preparing the District for renewal. This will be a team effort.
- **Director Payroll:** In October, it was identified that FFPD Directors have historically received 1099's. After talking with legal counsel, we identified that directors are generally classified as employees for tax purposes. I have reached out to Alameda County to determine the proper classification. The Board will be updated as information becomes available.
- **Required Board Training:** agendizing AB 1234 Ethics Training, AB 1661 Sexual Harassment Prevention Training, and SB 827 Fiscal and Financial Management Training. These are all free with CSDA. Instructions can be found in Addendum 2.
- **Financial reporting:** I am following up on outstanding financial reports and supporting documents to complete the financial picture of the district.
- **Fire Code and state initiatives:** Coordinating with Hayward Fire regarding aligning their Fire Code with Board adoption while also monitoring the August 19th, 2026, California Board of Forestry vote on Zone 0 regulation and other relevant developments from the State of California.
- **Service information:** Reviewing Hayward Fire's previously reported performance metrics and working with Hayward Fire to understand the data.

FIRE PROTECTION DISTRICT

3. Proposed or Requiring Board Direction

- **2026 Election and Swearing in:** Because election results have not been finalized yet, this will be reported at the meeting.
- **Training scholarships:** Consider using available CSDA scholarships before expiration where the training supports Board responsibilities and District priorities.
- **Board Policies:** During the creation of the Board Handbook, it was identified that certain board officer functions are not codified. I am working with legal counsel to determine what amendments, if any, need to be brought back to the board.
- **Records retention:** Review and consider adoption of an updated retention policy, subject to district counsel's recommendations.

4. Future Opportunities

- **GFOA Designation:** In alignment with the strategic plan, explore developing a roadmap to earn either the GFOA's Distinguished Budget Presentation Award or Certificate of Achievement for Excellence in Financial Reporting.
- **Resident preparedness:** Continue exploring opportunities for Personal Emergency Preparedness or similar educational program for Fairview and Five Canyons residents.
- **Reporting improvements:** Evaluate longer-term financial and contracted-service reporting after current data and administrative processes have been validated.
- **GM development:** For calendar year 2027, there is an opportunity to leverage the CSDA Membership and earn CSDA's Essential Leadership Skills Certification and attend the June GM Summit and training.
- **Website enhancements:** In alignment with the strategic plan, enhance the District's website to provide easily accessible information.
- **Grant Collaboration:** Explore and support mutually beneficial grants with the Hayward Fire Department.

Report purpose: This report is provided for Board awareness. Items identified as proposed or future opportunities will not proceed without appropriate Board direction/approval, budget authority, or partner coordination.

Addendum 1 to Memo: Status of Fire Station 8 Solar Array

Background:

At the September Board meeting, Director Justice noted that one of the solar inverters had gone dark. In response the Board requested that staff look into the solar array, determine its status, and if any maintenance or repairs needed to be done.

Records Review:

As part of the research, staff looked for historical records to establish the components of the solar array, warranty information, and if the original vendors still existed. Unfortunately, I discovered that neither Pacific Solar Energy nor Cooperative Community Energy Corporation appear to remain in business, and the original purchase agreement was not yet digitized. Thanks to Ms. Reyes' efforts, she was able to recover the original agreement from 2008 and digitize it along with the list of components. These materials will support future maintenance, lifecycle planning and evaluation of any remaining warranty rights.

Site review:

On October 24th, I visited Fire Station 8 and with assistance from on-duty Hayward Fire personnel we conducted a visual inspection of the canopy. We were able to determine that the inverter previously believed to be dark was illuminated and displayed a green status indicator. However, the display and status light were washed out by direct sunlight.

Remaining consideration:

The visual inspection did not determine what the production capacity of the panels are at. However, since no immediate repairs are needed, questions around the panel's life cycle can be incorporated into future capital planning.

Sincerely,

Anthony Kalvans
General Manager

One public speaker, Mr. Nassir, confirmed awareness of the situation and expressed it requires urgent attention. Mr. Nassir clarified that there are three other additional owners, all of whom agree on a need to find a solution to take care of it. Mr. Nasir further noted that it is the HOA's responsibility under relevant agreements and documentation, but they (owners) all know they must address it.

Another member of public spoke, stating that the HOA does not want to deal with it as they've gotten the run around until July or June.

Another speaker stated that the HOA didn't get the message from TrueMark about what they should clearly take care of per the documentation; and that Seabreeze was hired by developer, TrueMark as the property manager.

Mr. Nassir responded, not disputing anything that was said, noting that contract-wise, it is not TrueMark anymore, and they are in discussion with the Board of the HOA. Mr. Nassir stated that if one has to go after someone today, it is Seabreeze Management. Mr. Nassir stated they have a copy of the documentation - signed declaration with Seabreeze Management taking responsibility for all properties.

Director Choi expressed uncertainty as to whether they can go after anyone but the property owner(s). Mr. Nassir requested for an extension of time until the next meeting to come up with a resolution.
